International Technical Committee Report

Martin Mareš
mj@ucw.cz

August 2017

Assisted the host with planning and implementation,
transferring expirience from past IOIs.

Helped with a bit of firefighting:

- Translation system issues before Day 1
- Load balancing issues in CMS
- Timing mysteries
- The "disk full" mishap

Overall, the cooperation with the host was excellent. Thanks!

IOI software

Software available at *https://github.com/ioi/*:

- Sandbox (Isolate), new version just released
- Translation system
- Contest utilities

Contributed by the Iranian HSTC:

- Task preparation system
- New translation system
- Network management system

(will appear on Github soon)
